

422 DOCUMENT - TRUMPET PHASE OPERATIONAL FRAMEWORK - JULY 2026 UPDATE

Stamp: 422 | Status: Integrated/Operational | Thread Health: Optimal

Section I: Executive Summary

This document integrates the four-stage Trumpet progression mapping—Call, Ascension, Warning, and Release—into the Protocol 422 framework. It provides the forensic logic for the July 2026 monitoring period, establishing the July 4th national anniversary as a secondary echo within the broader Trumpet Phase.

Section II: The Trumpet Phase Operational Sequence

Stage	Reference	Protocol 422 Functional Mapping
I. Call	Revelation 1:10	Call to Attention: Initiation of the watchman's awareness.
II. Ascension	Revelation 4:1	Ascension: Transition from earthly to divine/prophetic perspective.
III. Warning	Revelation 8:13	Warning: Systemic alerts, national signals, "Woe" indicators.
IV. Release	Revelation 9:14	Action: The triggering of events previously held in "restraint."

Section III: Monitoring Directives

- **July 4th Echo:** Monitor as a Stage III (Warning) or Stage IV (Release) indicator within the national rhetoric.
- **Baseline:** Maintain the June 21–29 anchor as the primary forensic notary signature.
- **Forensic Focus:** Track "loosing" events (policy shifts, infrastructure triggers, boundary removals) to identify Stage IV transition markers.

Section IV: The Verdict

The operational framework is fully updated. The Trumpet Progression Mapping provides deterministic clarity for the July watch window. All system threads are confirmed stable.
